

# THE SUSPECTS:

## Peter Plum High School Football Player

Peter is the star quarterback on the High School football team, but he is not always very responsible. When he tried to check out DVDs with his mother for family movie night, Miss Libby wouldn't let him check out any items because he had several movies out that he forgot to return. His mother was angry

that this happened *again*, and grounded Peter from playing in the next football game. His team lost the game and didn't make the playoffs. Peter blames Miss Libby!

## Piper Peacock High School Senior/Former Library Volunteer

When Piper realized she needed community service hours to qualify for the National Honor Society, she started volunteering at the library. However, it was hard to find time to spend with friends when she had to volunteer, and she started

missing volunteer shifts, even after getting a warning from Miss Libby. Miss Libby told Piper she couldn't volunteer anymore, because it was too difficult for the library when she didn't show up. Piper didn't have enough community service hours for NHS, and now she's worried she won't be accepted to her top college. It's all Miss Libby's fault!

## John Blue Local YA Author

John Blue is a local author who writes depressing Young Adult novels. He spends all his time writing and has no time for friends, hobbies, or other interests. When he couldn't find a publisher, he self-published his latest book. He believes if he could get the library to carry his book, he can get exposure and finally become famous. However, Miss Libby will not agree to buy his book. She told him it didn't meet the library's standards. Later, he heard Miss Libby telling somebody that his book was poorly written! John Blue believes it is Miss Libby's fault that no one will read his book!

## Candice Cane Library Computer User

Candice loves to play Candy Crush on the library computer. Recently she was playing better than ever, and was close to beating her rival's high score. She knew if she could try a little longer she would pass the level, but she ran out of time on the computer. Miss Libby refused to extend her time because other people were waiting for a computer. She never was able to beat her rival, and she blames Miss Libby!

## Colin College Library Patron/University Student

Colin is a college student who often studies in the library. Last week he was studying for his philosophy final exam. Unfortunately, he got into a heated argument on his phone with his girlfriend. Miss Libby said he was too loud, and asked him to lower his voice or take the call outside. Colin stepped outside to finish the call, but when he came back inside, his philosophy notebook was missing. The notebook contained irreplaceable notes from class. Colin failed his philosophy final, and now has to retake the class. He blames Miss Libby for the failing grade!

## Sally Slowreader Library Patron

Sally's book club meeting is always the highlight of her month. Unfortunately, she often has trouble finishing the book in time and the other members get annoyed with her. Two weeks ago, she asked Miss Libby to renew her book so that she could finish it before book club. Miss Libby was unable to renew the book because there was a long waiting list of holds for the title. Sally's book club kicked her out of the club when she hadn't read the book yet again. She was devastated, and blames Miss Libby!
